

Free 3d Print Prompts

Ten design ideas. Five weeks of inspiration.

October–November 2026 · Curated starter collection. These are design starting points, not verified Etsy trends or validated STL files. All five weeks are available now.

Weekly prompts calendar

Week 1 · Oct 5–11 — Seasonal & tabletop

Week 2 · Oct 12–18 — A tidier desk

Week 3 · Oct 19–25 — Small gifts

Week 4 · Oct 26–Nov 1 — Home & hobby

Week 5 · Nov 2–8 — Play & unwind

TIP: Inspect every generated mesh and test print before selling. Check licenses and third-party rights. Use LED candles only; PETG is not automatically watertight.

Seasonal & tabletop

Halloween Pumpkin Tea-Light

[Seasonal / holiday decor](#)

A grinning jack-o-lantern tea-light holder, 3D printable, carved face cutouts that glow with an LED candle, lid lifts off, prints without supports, 90mm wide, flameless candle only, watertight manifold mesh, STL ready

Tabletop Dice Tower — Castle

[Tabletop gaming](#)

A medieval castle dice tower for tabletop RPGs, 3D printable, internal baffle ramps for fair dice rolls, tray that catches dice at the base, stone brick texture, prints without supports in 3 parts, fits standard 16mm dice, 160mm tall, watertight manifold mesh, STL ready

TIP: Confirm dimensions and moving-part clearances in your slicer. A prompt can request a supportless, manifold design, but the generated result still needs inspection.

A tidier desk

Modular Desk Cable Hive

[Desk setup / organization](#)

A modular hexagonal desk cable organizer that snaps together, 3D printable, supportless design, chamfered edges, slots for USB-C and Lightning cables, minimalist geometric style, PETG friendly, 80mm per module, watertight manifold mesh, STL ready

Wall-Mount Headphone Hook

[Desk setup / everyday utility](#)

A sleek wall-mounted headphone holder hook, 3D printable, curved cradle that protects headband padding, hidden screw mount, supportless orientation, minimalist Scandinavian style, PETG for strength, watertight manifold mesh, STL ready

TIP: Confirm dimensions and moving-part clearances in your slicer. A prompt can request a supportless, manifold design, but the generated result still needs inspection.

Small gifts

Articulated Axolotl Keychain

[Fidget toys / gifts](#)

A cute articulated axolotl keychain, 3D printable, print-in-place flexible joints, no supports needed, smooth rounded cartoon style, small loop hole for keyring, single-color filament friendly, 60mm long, watertight manifold mesh, STL ready

Personalized Dog Tag — Bone

[Pet accessories / personalized gifts](#)

A bone-shaped pet ID tag with embossed placeholder text area for a name and phone number, 3D printable, 2mm raised lettering, split ring hole, smooth edges, prints flat without supports, 45mm wide, watertight manifold mesh, STL ready

TIP: Confirm dimensions and moving-part clearances in your slicer. A prompt can request a supportless, manifold design, but the generated result still needs inspection.

Home & hobby

Mushroom Fairy House Planter

[Home decor / plant lovers](#)

A whimsical mushroom-shaped fairy house planter with tiny door and windows, 3D printable, drainage hole in base, prints in two parts without supports, storybook cottage style, 120mm tall, watertight manifold mesh, STL ready

Miniature Terrain — Ruined Arch

[Tabletop gaming / miniatures](#)

A ruined stone archway terrain piece for 28mm tabletop miniatures, 3D printable, broken columns and scattered rubble, cracked stone texture, prints flat without supports, resin and filament friendly, watertight manifold mesh, STL ready

TIP: Confirm dimensions and moving-part clearances in your slicer. A prompt can request a supportless, manifold design, but the generated result still needs inspection.

Play & unwind

Spiral Fidget Cone

[Fidget toys / desk toys](#)

A mesmerizing spiral cone fidget toy that screws into itself, 3D printable, two interlocking twist parts, smooth spiral threads, print-in-place, no supports, satisfying tactile motion, 70mm tall, watertight manifold mesh, STL ready

Bathtub Wine & Phone Caddy

[Home decor / self-care gifts](#)

A bathtub caddy tray section holding a wine glass and phone upright, 3D printable, adjustable grip arms for tub edges, drainage slots, prints in flat parts without supports, waterproof PETG, watertight manifold mesh, STL ready

TIP: Confirm dimensions and moving-part clearances in your slicer. A prompt can request a supportless, manifold design, but the generated result still needs inspection.
